

EDUCATION

B.Tech

VIT Chennai
2022 - 2026

WORK EXPERIENCE

Flutter Development

Paynav, Virtual

Internship • May 2024 - Present (3 months)

I am currently assigned to add additional features in the existing fin-tech app Paynav.

Flutter Development

Cehpoint, Virtual

Internship • May 2023 - Jul 2023 (2 months)

I have made a social media app and e-commerce app

PROJECTS

ICRTAC-24 Conference Website

May 2024 - Jun 2024

<https://icrtac.vercel.app>

I have designed and developed the official conference website for ICRTAC'24 (7th INTERNATIONAL CONFERENCE ON RECENT TRENDS IN ADVANCED COMPUTING). I used Figma to design the website. The tech stack used to build this site is React JS and Tailwind CSS for the frontend. I have also used Scroll Reveal library which adds the animations to the components and makes it look professional.

Laundry Management Software

Nov 2023 - Nov 2023

<https://wazhine.vercel.app>

I have created laundry Management Software, in which customers can add laundry and laundry workers can send laundries and send mails by clicking a button to notify users that their laundry is done.

ZenChat

Jun 2023 - Jul 2023

<https://github.com/aswin-codes/ZenChat>

A Fullstack Chatting App built using Flutter and Express JS. For Database, I'm using PostgreSQL.

Wish Remaining App

Apr 2023 - Apr 2023

<https://github.com/aswin-codes/Wisher1>

I have created an app that reminds people to wish their friends and family by sending them notifications and allows to wish them on social media by clicking the notification.

Bisine (Fullstack Ecommerce)

Jan 2024 - Present

<https://bisinevite.vercel.app/>

I have created a full stack ecommerce app in which users can create digital shop profiles, list their products, manage orders and payments. I have used React JS for frontend, PostgreSQL for database, Node JS for backend and deployed using Vercel
